

1 pcs. 10 mm Diode for 12V in Parts

The latest technology makes it possible to make these super diodes with an enormous light scattering.

The latest technology makes it possible to make these super diodes with an enormous light scattering.

It set includes resistors for 12V, techflex and assembling instructions, however, without mounting frames.

Note: these 10 mm approx. 70mA per paragraph uses diodes, which corresponds to a level of power consumption for 4 ordinary diodes.
