

## Bardolino H aluminum-profile

An anodized H-profile, where you can mount LED stripes and plastic fronts above and below.

A nice anodized H-profile with space for LED stripes and plastic fronts at the top and at the bottom. The LED stripes are mounted, where after the fronts are clicked on. With the endcaps you close the profile and you get yourself a nice finish.

The profile can be mounted on a wall with the mounting-brackets or as a lamp using the ceiling mounts.

### End caps

The endcaps are screwed on to the end of the Bardolino H-profile and give the profile a nice finish. 2 endcaps and 4 screws are included.

### Mounting brackets

A bracket and screws for mounting the profile on the ceiling or on the wall are included. The profile can be slid over the bracket or to be clicked on. The set includes 2 brackets, 2 screws and 2 rawplugs.

### Wire suspenders

A complete set for one profile with two wires, two fixings for a profile and two ceiling-mounts. It is easy to mount and it gives a nice touch.
