

Serie 30 - Center plate

Strong center-plate that can be bolted on to 3060 and 6060 profiles. There is a centerhole with threads, eg. for legs and wheels.

Strong center-plate that can be bolted on to 3060 and 6060 profiles. There is a centerhole with threads, eg. for legs and wheels

You make threads in the end holes of the profiles, where after it is easy to bolt the center plates on.

Material: aluminium
