

## Serie 30 - Angle-bracket with cover

Bracket for joining two 3030 profiles in a 90 degree angle. The cover hides the bolts and nuts, and gives a great finish.

Bracket for joining two 3030 profiles in a 90 degree angle. The cover hides the bolts and nuts, and gives a great finish.

The bracket has the dimensions 30x30x30, and there is a  $\varnothing 6$ mm / M6 hole for bolts. We suggest button heads, as there is little space.
