

## Serie 40 - Flat bracket - Rotatable

Smart 6mm brackets, that are rotatable 45 or 90 degrees. They can be used for fixed, adjustable, and movable joints.

Smart brackets made of solid 6mm aluminium, that are rotatable 45 or 90 degrees. They can be used for fixed, adjustable, and movable joints, depending on the accessories you use. The holes and slots are for 8mm bolts. Locking handles are an obvious choice in the slot if you want an adjustable joint.
