

Heavy duty drawer rail, galvanized steel, 120kg

Extra strong drawer rail with bearings, and full extension. The drawer can carry 120kg in pairs. Easy to mount, as the last section can disconnect.

The drawers are sold as 1 pcs. at a time!

Extra strong drawer rail with bearings, and full extension. The drawer can carry 120kg in pairs, enough for extra high loads.

The rail is easy to mount, as the last section can disconnect.

There are mounting holes along the length of the tracks. The holes on the inside are countersunk, and fits M5 bolts or similar wood screws. The oblong holes are for momentary mounting, so you can adjust the drawer before fastening.

The drawers can be pulled out to double length, eg. 500mm becomes 1000mm when pulled out.
