

Matronics emitter for Volvo Look-a-like roof light

LED emitter that replaces the emitter in Volvo Look-a-like roof lights. Available as Dual and Single color in multiple light colors

LED emitter that replaces the emitter in Volvo Look-a-like roof lights. It has 6 bright LEDs versus 3 in the original. The emitter is available with multiple light colors and dual color models.

The dual color of course requires a lamp with transparent glass to work.

Take care to pick the right voltage.

Connecting

Single color

The single color model is connected as any typical lamp, red wire to plus, black to minus.

Dual color

The dual color model changes color when you swap plus and minus. This can be done with a two-pole switch, or by using [our polarity-flipper controller](#).

We also have a [Dual Color US light controller](#), if you want to use the lamps as both position lights and indicators.

The dual color lamps have wires matching their light color. If you connect the yellow light to plus, and the other to minus, the lamp will light yellow.

Specifications

Voltage	24V-30V DC
Consumption	0,75W
Current	30mA
LEDs	6 x Medium power
Wire	10cm
Potting	Frosted LED PU

Product overview

12V Dual Color, Yellow / Xenon hvid

SKU 127730-AMCW

12V Dual Color, Yellow / Warm white

SKU 127730-AMRD

12V Dual Color, Yellow / Rød

SKU 127730-AMRD

12V Single color, Xenon white

SKU 127730-CW

12V Single color, Yellow
