

## Strands Nuuk E-line licenseplate LED bar - 82W

E-approved license plate frame with build-in LED light bar.

Strands Nuuk E-line is a license plate frame with a built-in spot light bar, that gives you a very bright light on the roads. With this, you avoid having to make holes in your car and simply replace the existing license plate frame.

The license plate frame fits all EU license plates and works just like a normal one would. Available with 82W and 8.800 theoretical lumens.

There are brackets included for mounting and also a pre-mounted 3-pin DT plug and fitting counterpart, which makes the installation much easier.

- Black: Minus / -
- Red: High-beam
- White: On / Off signal for high-beam inside the car

E-improvements: ECE R149, R10, CE
