

Series 40 - Plastic Arm - Locked, 5 Degree Increment

Three-part plastic arm, adjustable in 5-degree intervals, with 4 track locks. Mount between profile ends or sides.

A robust three-part plastic arm that can be adjusted and locked in 5-degree intervals. Typically mounted between two profiles, it can be attached at the end or side of a profile thanks to the included 4 slot locks.

Comes with an M8 bolt and nut to assemble the arm, but an M8 locking handle can also be used for easy angle adjustments. Two M8 bolts are also included for securing.
