

series-3O-solid-angle-bracket-side-hole

Solid M6 assembly bracket for securing plates, feet, or wheels. Typically mounted at bottom of the frame.

Solid assembly bracket with M6 side-hole, for securing plates, feet, or wheels. Typically, the bracket is mounted at the bottom of a frame, where it is fastened with 2 x M6 bolts.

See dimensions and dimensional drawings.

As the selection of caster wheels with M6 is limited, you can drill the hole up and make M8 threads instead.
