

Magnet Stripe for LED Stripes, 10mm

LED stripes are mounted on the magnet stripe, where after you can mount it on any metalsurfaces. It cannot be used in aluminum-profiles.

LED stripes are mounted on the magnet stripe, where after you can mount it on any metal surfaces. This also makes it easy to dismount.

It cannot be used in aluminum-profiles, as aluminum is not magnetic.

The stripe is sold in whole metres. We cannot guarantee that you will receive a certain length, as it depends on the lengths we have in stock.
