matronics.11

If you want to use these in the corners, you will have to use the original wedged rubber bases.

#### Dual color models

Dual color corner-lamps change between yellow and white light, by swapping plus and minus. This requires changing the original wiring, and is controlled with a <u>color changer controller</u> or a 2-pole switch.

# Extra neon lamps

<u>The Neon lamps can also be bought seperatly</u>, if you wish to use them elsewhere on the truck.
