

ScanGrip Flash Pen R

A rechargeable LED pencil light for professional use. Adjustable focus from 10 to 60 degrees. Boostable enables you to increase the light output from 150 to 300 lumen.

A rechargeable LED pencil flashlight by danish Scangrip for professional use, that fits right into your pocket. With the flashlight's adjustable focus function, the light beam can be adjusted from 10 to 60 degrees, which goes from being a concentrated light beam to a more diffused light. The range is up to 100 m.

The flashlight also has a magnetic on / off switch with a boost function that allows you to increase the light output from 150 to 300 lumens. The boost function can be activated by holding down the on / off switch for 2 seconds. The flashlight switches back to normal mode after 60 seconds.

The flashlight is made out of anodized aluminum for high strength, the flashlight also has an ergonomic and secure grip as well as a metal clip that ensures that it stays in the breast pocket. It ensures a very high quality product that is designed to withstand a lot of punishment without breaking. The lamp housing is waterproof (IP54)

The lamp can be charged with the supplied USB cable, which can be connected to many different 5V DC chargers. We also sell extra Scangrip chargers with 1.8m cord if you need a more permanent charging solution.
