

V-slot - Smooth pulley / belt tensioner

Wheel that tightens the belt on your guide, to prevent the belt from jumping / skipping. Two ball bearings for M5 bolt.

Wheel that tightens the belt on your guide, to prevent the belt from jumping / skipping. During tasks where precision is vital, any jump will result in problems.

The belt tensioner has two ball bearings, that fits a M5 bolt.

This is typically used with our belt tensioner plate.
